

formfusion[®]

Simple Steps to Upgrade to FormFusion 3.0

Below are the necessary steps to upgrade to FormFusion 3.0

1. Visit our HelpDesk and submit a support request to be added to the FormFusion 3.0 upgrade schedule and obtain further instructions, new MAPS license and training information at: <http://helpdesk.evisions.com>
2. Learn about the exciting NEW features of 3.0 in our [Release Guide](#).
3. For clients that currently do not have MAPS installed, please refer to our [MAPS Installation Quick Start Guide](#).
4. Review the instructions in the [FormFusion 3.0 Installation Guide \(Banner\)](#).
5. Review the [Migration Guide](#) for instructions on how to migrate your templates for version 3.0.
6. Download the [FormFusion 3.0 User Guide](#).
7. We strongly recommend testing all of your upgraded templates in your Banner and FormFusion 3.0 test environment before moving them into production.
8. If you are new to MAPS, please register to attend our MAPS Administrator training at: <http://www.evisions.com/calendar>

Additional Notes

Remote assistance for installation and configuration of MAPS is available, free of charge.

This upgrade should take about one hour. The time it takes to test FormFusion 3.0 is determined by each institution.

Remember this upgrade is free of charge for all current FormFusion clients.
